

# Fono, Collide

In this perfect world  
Our paths may never meet  
May never comprise  
Or collide, collide, collide

It's you, you let me go, you let me fly, you let me ride so high

It's you, you make my worlds collide  
You make my life complete, you let them see me, see me fly

Never walk away  
Never let you down  
Never will deny  
This life, this life, this life
