

Foo Fighters, Overdrive

Every now I'm running out
This time I think I'm breaking up
Come on down, we'll take this town
Tonight before it turns to dust
You change and then
You change again
Turning like the wheels inside your head
Every now I'm drifting out
This time it keeps on sinking us
Come on down, we'll take this town
Tonight before it turns to dust
You change and then
You change again
Turning like the wheels inside your head
Overdrive, I'm going life or death
Overdrive, I'm going life or death
Overdrive, I'm going life or death
Keep hanging by a thread
There's a lie, I think you'll find
It's locked inside of everyone
You and I get on with life
Pray we'll find a better one
You change and then
You change again
Turning like the wheels inside your head
Overdrive, I'm going life or death
Overdrive, I'm going life or death
Overdrive, I'm going life or death
Keep hanging by a thread
You change and then
You change again
Turning like the wheels inside your head
Every now I'm drifting out
This time I think it's sinking us
Come on down, we'll take this town
Tonight before it turns to dust
You change and then
You change again
Turning like the wheels inside your head
Overdrive, I'm going life or death
Overdrive, I'm going life or death
Overdrive, I'm going life or death
Keep hanging
Keep hanging
You keep hanging
By a thread
