

# Foo Fighters, See You

these notes are marked return to sender  
I'll save this letter for myself  
I wish you only knew how good it is to see you  
these steps I take don't get me anywhere  
I'm getting further from myself  
one this is always true  
how good it is to see you  
I'm done resenting you  
you represented me so well  
and this I promise you  
how could I end up in the hands of someone else
