

For Amusement Only, Set The Story Straight

It's time alright!
For us to stand up and fight
It's time alright!
To set the story straight tonight

I look around today
I see a messed up place
This world we live in
Doesn't have a clue

About the things you say
Decisions that get made
They affect our lifes so
Where's our try, yeah!

It's time alright!
For us to stand up and fight
It's time alright!
To set the story straight tonight

You say we waste our time
Leading worthless lives
At school and home
We've done nothing wrong

You judge us on what we wear
And how we cut our hair
but we're the future
So it's up to you, yeah!
It's up to you, oh yeah!

It's time alright!
For us to stand up and fight
It's time alright!
To set the story straight tonight

You'd rather run away....

It's time alright!
For us to stand up and fight
It's time alright!
It's just not right, it's just not right,
it's just not right, yeah!

It's time alright!
For us to stand up and fight
It's time alright!
To set the story straight tonight

You'd rather run away....
