

# For Amusement Only, So Goes Life

All he wanted was a simple life of  
love, someone to notice he was there  
but all he found were empty rooms of  
loneliness no one seemed to even care

So this is life after all  
So this is life after all

All she wanted was a boy to love and  
hold, help her make it through the day  
but all she found was heartache,  
everybody a mistake  
broken dreams just fade away

So this is life after all  
So this is life after all

Here we stand in line waiting for the  
turn of tide, hoping life will lend a hand  
when we just don't understand  
we move them on

We move them on and on

Why don't you feel why don't you see  
does it hurt too much to notice me

Why don't you feel why don't you see  
does it hurt too much to notice me

And everything we did was wrong  
move them on, move them on

All he wanted was to fit in with the  
other kids that always laughed at him  
but all he found were other broken  
hearts searching for more than  
anyone could give

We move them on and on
