

For Amusement Only, Start Again

Remember when I told you
That this is what I have to do
Dumb reasons, but I knew it all
Nothing less and nothing more

You know it's true I made it
You know it's true I'm on my own

So far I've gone
and carried on
Can I come home and start again
So far I've gone
And carried on
Can I come home and start again

Time goes by and people change
And so my life got rearranged
You always believed in me
I'm thanking you for everything

You know it's true I made it
You know it's true I'm on my own

So far I've gone
And carried on
Can I come home and start again
So far I've gone
And carried on
Can I come home and start again

Take a chance
Make up your mind
You never know
What you might find

Remember when I told you
That this is what I have to do
You helped my dreams come true
And now this song I give to you!

You know it's true I made it
You know it's true I'm on my own

So far I've gone
And carried on
Can I come home and start again
So far I've gone
And carried on
Can I come home and start again

Can I come home and start again
