

# For My Pain..., Queen Misery

(Music: O-P Trr, Lyrics: Juha Kylmnen)

Too many broken promises in her fragile life  
Too many secret thoughts she tried to hide that night  
So hard she tried to escape  
But (the) pain was everywhere  
No, take this pain away  
Even for one day  
She cried on her own grave  
Please, demons set me free  
My heart has started to bleed  
I have become the queen misery  
And it seems to last forever  
She tried to reach to the stars all her life  
But her mind fell apart every time
