

For Stars, How It Goes

That's how it goes babe
Friends they can't be found
People fade away
Don't be so amazed
Cars can take them far
We will be alone

That's how it goes babe
Money trickles down
People make mistakes
Don't be so ashamed
You will be a star
Bringing them back home
You won't be alone

That's how it goes babe
Mountains can't be made
Cities hit the ground
Don't be so profound
You will be the star
Bring them back home
You won't be alone
