

For Stars, Wires

God is watching me,
The stupid things I say
He's holding me,
It's OK

And I don't want to be eternal
I don't want to walk on wires
I just want to know
That it's OK

And I don't want to touch the fire
I don't want to be much higher
I just want to know
That it's OK

I don't want to be your baby
Always saying someday maybe
I just want to know the place you go

And I don't want to be eternal
I don't want to walk on wires
I just want to know the place you go
the place you go
