

# Foreigner, With Heaven On Our Side

Time, our precious time  
In the beginning  
Your heart and mine  
I thought our love  
Was one of a kind  
I thought we were winning  
But I was one step behind, ooh oh

Words, I couldn't say  
The words that would keep you  
From running away  
But I should've tried  
Even begged you to stay  
I felt the tears of an angel  
Fall from Heaven that day

I know, I know  
Your voice keeps haunting me  
Come home, come home  
Come on back to me  
I know it ain't easy  
You're a part of me  
You're the wings on my heart

Can we give our love another try?  
Can we keep our broken dream alive?  
Now more than ever  
With heaven on our side, oooh

Can we give our love one more night?  
I miss you angel, can we make it right?  
Now and forever  
With heaven on our side, on our side

This tender love slipped through our hands  
Two broken hearts, could not withstand it  
Girl, I know what I put you through  
If you need me now, I'll be there for you

And I know it ain't easy  
Still a part of me  
You're the wings on my heart

Can we give our love another try?  
Can we keep our broken dream alive?  
Now more than ever  
With heaven on our side, oooh

Can we give our love just one more night?  
Oh angel baby, shine your golden light  
Now and forever  
I know heaven's on our side, on our side

Give our love another try, give our love another try  
Can we keep our broken dream alive?  
Now more than ever  
With heaven, heaven on our side, on our side

Heaven on our side
