

Forestella, Moonlight

I saw a smile within a dream
A distant memory in the wind
And every night I pray we meet
In the glow of the silver moonlight

Your eyes shine like the ocean deep
The glinting waters wash over me
For I'm a sailor lost at sea
With only the moon to guide me

Sing softly in my ear
Whispers only I can hear
I'll know when you are near
The shimmering ripples will tell me

Sing softly in my ear
Whispers only I can hear
I'll know when you are near
The shimmering ripples will tell me

Your eyes shine like the ocean deep
The glinting waters wash over me
For I'm a sailor lost at sea
With only the moon to guide me

Sing sweetly in my ear
Echo through my lonely fears
I'll know when you are near
The shimmering waves will tell me
The shimmering waves will

And every night I pray we meet
In the glow of the silver moonlight
