

# Forever Slave, Beyond Death's Embrace

You'll never feel  
my blood again  
For you this means  
the end of all  
your sorrows

Your eternal life,  
the end of your tears  
and when the sunrise  
starts to appear ,  
you will be gone  
When daylight dies,  
velvet night will be my guardian  
to shelter my immortal soul

Deaths souls: Erzebet sits close to her  
she starts to lick her breasts  
Then lust and blood  
begin to become one  
With whispers of death

Countess: When lust and blood  
begin to become one  
With whispers of death  
fire will burn her soul out

Ophelia: Liliths daughter,  
you cant steal my soul

Priest: She loves Satan...With whispers  
of death...She mentions his name

She enjoys the rippling of blood  
and sings: Hail Satan
