

Forever The Sickest Kids, That For Me

We used to drive all night and listen to the radio
We'd push the front seats up and make the back our bedroom
Stay here all night long, be strong, forget the world we're living in

Mother I know you know I'm having a good time
I'm sleeping so little but I'm living a good life
No need to worry, I got a place to lay my head down
No need to worry, I got a place to sleep

I need somebody to rely on
And you weren't that for me
And you'll never be that for me
Yeah, you'll never be that for me
Yeah, you'll never be

I count down the steps to your apartment
Cause I'm eager to know if your even at home
And I called you on the drive home
But you were alone

Mother I know you know I'm having a good time
I'm sleeping so little but I'm living a good life
No need to worry, I got a place to lay my head down
No need to worry, I got a place to sleep

I need somebody to rely on
And you weren't that for me
And you'll never be that for me
Yeah, you'll never be that for me
Yeah, you'll never be

I need somebody to rely on
And you weren't that for me
And you'll never be that for me

I love you but I'm not sure that I really want to
Touch you but I will only if you ask me to

Yeah, you'll never be that for me
Yeah, you'll never be that for me

I need somebody to rely on
And you weren't that for me
And you'll never be that for me

I need somebody to rely on
And you weren't that for me
And you'll never be that for me
Yeah, you'll never be that for me
