

# Forever The Sickest Kids, Uh Huh

Say girl (whoa), every night you ask me to come over  
And I came (you better believe it), every time you called (cause I wanted be there)  
As a matter a fact I was probably waiting by the phone

If I would've known what I know now  
Would've left when I had the chance  
We were two weeks in it'll never last  
If I would've known what you were thinking  
Would've ran for the hills and hid  
I would've stayed low key  
Till you're over it, till you're over it (oh oh)  
Till you're over it, till you're over it (oh oh)  
Till you're over it

Uh huh, uh huh  
We're doing it  
Way too well  
Uh huh, uh huh  
We're doing it  
We're getting it, getting it done

Give up now, it won't last forever  
(There it is I laid it down)  
And if we can't be friends then what can we be?  
(I'm givin' up it's not working out)  
Maybe someday baby we can learn to live (together forever)  
If we're not friends then what can we be?  
Giving up it's not working out

Uh huh, uh huh  
We're doing it  
Way too well  
Uh huh, uh huh  
We're doing it  
We're getting it, getting it done
