

Forte, Lovin You

i was standing in a corner of a crowded room
thinkin 'bout you (yeah)
thinkin 'bout your smile it's strange tonight
of how i fell in love so soon
could this angel be sent to me to answer my dreams
i tried hard to hide what's deep inside but it's killing me

~ChOruS~

loving you is easy
when you say it from the heart
like the stars in the sky
we will never part
from my body and soul
i just want you to know
if i'm breathin then im lovin you

i can't believe in all this world
with all there is
you would choose me
you touched me once in this special way
and now my life has changed
it'll never be the same
you're the answer to what i've asked time and time again
still thoughts and doubts can cloud my mind
when i know it can end

cAndLe-LigHt sets the mood
as we embrace (i can't let go)
lose myself in love
deep precious love
i finally found my heaven up above, up above
