

# Forty Foot Echo, Long Way Down

Put your line up on a shelf  
For another day  
Fly away from everything  
What would they say...  
something simple  
something strange  
Is he gone for good again?  
why did he act this way?

And could you ever see its a long way down  
and could you ever find a way  
just to see you there  
and try to understand  
Its a long time to waste

could you ever see yourself  
in another place  
far away from everything  
What a perfect space  
Nothing ever nothing same  
But i know where your coming from  
To find yourself again

Could you ever see its a long way down  
And could you ever find a way  
just to see you there  
and try to understand  
Its a long time  
to waste

I don't wanna know it

Its a long long time  
Ohh yeah  
Ohhh yeahhhh oooooo

Could you ever see yourself in another place  
far away from everything

Could you ever see its a long way down  
And could you ever find a wayyy  
To see you there  
And try to understand  
Its a long time to waste

Its a long time to waste (x3)
