

# Forty Foot Echo, Save Me

sit around and lose myself again  
never thought i'd wait to realize  
i can't hold on to what you see  
and i can't move  
when you're down on your scene

our mistake  
it's all i remember  
try to hold on  
to all of my ways

so save me  
in my life  
just hold on  
how could you realize  
you save me  
in my life  
just hold on  
you've got to realize  
ooh, good bye

sit around and find myself again  
never though i'd wait to justify  
i can't hold on to what you see  
and i can't move  
when you're down on your scene

so save me  
in my life  
just hold on  
how could you realize  
you save me  
in my life  
just hold on  
you've got to realize

goodbye  
ooh, goodbye  
goodbye  
ooh, ooh  
ooh

so save me

so save me  
in my life  
just hold on  
how could you realize  
just save me  
in my life  
just hold on  
how could you realize  
so save my  
in my life  
just hold on  
how could you realize  
so save me in my life  
just hold on  
ooooh
