

Four Star Mary, Strangled (Acoustic Demo)

turned to face myself alone
'cause we both know
we don't walk on the same road
the same road

minutes turn to a week
but we don't speak
we just shout in the same tones
the same tones

twisting all of the fears until they
strangle me
tear down this wall
tear down this wall

tell me why my heart will bend
but won't mend
is it 'cause i'm the wrong one
the wrong one

easier for you to find
another mind
to share your thoughts
when i'm turned out
i'm turned out

twisting all of the fears until they
strangle me
tear down this wall
tear down this wall (2x)

how much could i feel it(2x)
how much could i know(2x)
the sounds of fear trembles in my soul
i'm lost in here forever
nothing's on my side
never before i've
never before i've lied...

twisting all of the fears until they
strangle me
tear down this wall
tear down this wall (2x)
