

# Fov Vance, Shed A Little Light

They say that love is hard to find  
I sure found it hard to find mine  
Though love walked right up to my face  
She said you can only love  
what you'd die for baby  
Shed a little light so I can find you  
Don't let darkness hide you from my face  
Shed a little light so I can find you  
I'd surely die for your embrace  
They say the second love reveals  
Trouble is hot on its heels  
Then love walked right up  
and stood by my side  
And said if it's love or death baby,  
no need to decide  
Shed a little light so I can find you  
Don't let darkness hide you from my face  
Shed a little light so I can find you  
I'd surely die for your embrace  
Shed a little light so I can find you  
Don't let darkness hide you from my face  
I've got a light that is sure to find you  
But it might just blind you before that baby
