

# Foxy Brown, La Familia

Ill Na Na cap 'em, the Firm team can stop 'em  
36 moves, 37 ways triple days triple pays  
Na Na, Fox Boogie Firm momma, kineiver  
Lady Gadiva, like Scarlet whichever O'Hara  
It's hazardous, we lays the lazarus  
Dip and probably find her behind the liner, three na na  
So what the deal, God I kill for these three for real  
You soar cause you bustin' off shit to get ya rocks off  
The thorough, the crime organized mad deniro  
And six point one five desero like hero'  
Team let's roll on 'em, watch 'em turn bitch  
'Mega stole on 'em, that's how we play this  
I slay this, copped the pair of fours fucked the draws  
Really, his pretty had the nigga leary  
Mad dipped in, Nas you flipped this  
Sos with VSO's twisted, from seperate the real from the fucked up  
We switch up, I gave the stroke though  
Ill skin color coco, we loco love is love talk the tre' ocho  
Status Illmatic, whatever raw dealer for real-a  
Baby girl, yet it's La Familia  
I die in a minute for 'em, so side dipped  
The four poin six range rover the feelin' over  
From Castilano to Columbo, easy the Genevezy  
Firm stay jigged in trash and pass, I swear  
You know the lose there, straight cop threes  
Can't knock thees and drop threes, we cop cheese

## Verse Two: Nature

Peace and diagnosis, properly supply the dosage  
Leave them stuck like parol niggaz and breathes the focus  
Nigga when I squeeze ya pleads is hopeless, we wet though  
I jet from the block, niggaz can spot me like UFO's  
Dressed the low, jumped in the Q front for who?  
No need to stress it though, smokin' my dope countin' decimals  
Recognize this, real thugs respect violence  
The 1-9-9-6, some are rather dry snitch  
Coruptfully, my whole team recieve ???? to be  
Some are spare guns, shootin' fair ones in the public streets  
Believe the worst, so it seems the whole team is cursed  
We totured, drain the whole heat and squeeze first  
Never ending tales, when niggaz fall but some prevail  
They fake, callin' us together like four Navy war seals  
Must I start pullin' jooks or place my trust in God  
Force to cover my face, cameras held the case can solve  
Ya faith disolves when hump against the next coming  
For now I focus on Nature, bet I win something

## Verse Three: Nas Escobar

I die for my niggaz, stick you for pies and lie for my niggaz  
Plead guilty and get the chair and fry for my niggaz  
It's essential that we all is there like ya mental  
We've been through life, cold blood living simple  
Though we learned from old dogs that made it, peeped who they played it  
We rated and then evaluated, calculated age is weepy  
The days that we see chips freely, beyond whips and TVs  
Stock bonds, Lou flipped the CDs  
Niggaz hate to see you on top, they'd rather be you what not  
I keep the dessert evil poncot, spot the Vickidees guy quick  
While poppin' shit that leave ya shot quicker than a hop skip  
Specialize in fly shit, bs on my breath while niggaz gossip  
On the tostic, I'm on some doe or die shit

## Verse Forus: Az the Vizuliza

Check my lingo and all the white ice that make my rings glow  
I've seen doe, got a dime wife who Sandimingo  
Face it it's mathematics, basics far from fake shit  
My mind is sacred, my spins shine like a cuban bracet  
Egyptian pharoah, roll the coke that used to give me powder  
Now I en hale from ???? buckshots through my double barrel  
Beneath the town is how it's sounds travels, so what have you?  
Keep minds bests, never stopping until they grab you  
Used to bust shit down wit' test stocks and trust funds  
Cheese and CDs so my seed can so touch some, the foulness  
I once provoked is now behind me, it gonna take more than sellin' coke  
To now to bind me, you had me thinkin' I got to push leek  
To keep from sinking, that can out way life  
That keep live niggaz from linkin', I saw it coming  
That's why slowed down from from dumbin', most of my crew was runnin'  
Can't even afford a summons
