

# Fozzy, Feel The Burn

Feel the burn

You've the feeling to help keep you bound  
Has sealing your fate held you down

Violations  
Salutations  
Complications  
Realizations  
Indecision  
Clears my vision  
I'd like to take it all and shove it  
Back in your face

My screaming yeah  
Feeling this way for too long  
My dreaming yeah  
Feeling this way for too long

Feel the burn  
Feel the burn  
Feel the burn

All the dreams that you've had not around  
As the latter of your kind worn down

Selfish reasons  
Change of seasons  
Trust no other  
Cheat another  
Sound of violence  
Hymn the silence  
I'd like to take it all and shove it  
Back in your face

My screaming yeah  
Feeling this way for too long  
My dreaming yeah  
Feeling this way for too long

Feel the burn  
Feel the burn  
Feel the burn

You've the feeling to help keep you bound  
As the latter of you kind worn down
