

# Frameless, I Try

Us, we're coming and we go away,  
Always try to find the right way,  
We're trying as we're passing by,  
Day and night.

And we try, try to make the right decisions,  
Yes we do,  
And we try, try to find the right way,  
For me and you.

When, when we turn around and look ahead,  
And things we're here to find instead,  
When rain comes down on sunny days,  
We make up on mind.

And we try, try to make the right decisions,  
Yes we do,  
And we try, try to find the right way,  
For me and you,  
And we try, try to make the right decisions,  
Yes we do,  
And we try, try to find the right way,  
For me and you.

Always try to make the right decisions, yeah.  
Always try to find the right way.

So, and you think you miss the right way out,  
Think without a doubt and you find,  
Another road that leads you here,  
Ride into your mind.

And we try, try to make the right decisions,  
Yes we do,  
And we try, try to find the right way,  
Yes for me and you,  
And we try, yes for me and you,  
Yes for me and you.

Us, we're coming and we go away
