

Frames, A Caution To The Birds

The body's not secure,
and this crumbling apart,
the truth will not absorb,
sound, there's order in the sound,

is no good for you at all..
past the time under foot,
the sound that you don't know..

and with eyes that never look,
and this reading in the cards,
is a caution to the birds..

sound, there's order in the sound,
the sound that you don't know..
