

# Frameshift, Outcast

Inside I know there's two of me  
Can I conquer this duality  
I try to fight this demon seed  
If these walls could talk  
You'd hear a piercing scream

(Dear Classmates)  
Can I ask what it is like  
To win at everything  
Some of us were born to lose  
Least that's how it seems  
Never had a love that lasts  
I'm an outcast looking in  
Never had a friend in class  
Gave all I had to give

This day might be my last  
And after class  
I'll settle the score

(Dear Parents)  
You know that you failed me  
At just about everything  
Too busy fighting there were nights  
I couldn't even breathe  
You know at nine  
I just wanted to be loved  
But now at seventeen  
I know I'm way past that,  
I need company in suffering  
Bad behavior up to bad parenting  
Oh tell me father where have you been  
It's gonna be the worst thing  
You've ever seen  
I call it proof, you call it sin

(Dear Teacher)  
We could've been more  
Than you gave us credit for  
Everyone can do something  
And in home room you will soon know that  
Fuck you! We're capable and you turned it all to salt  
Your bitter show of doubt know that what I do is all your fault  
We are all capable of something good or bad  
You heard them pick on us didn't do a thing  
You're pushing me too far way too far

Inside there still are two of me  
I can conquer this duality  
I try to fight this demon seed  
If these walls could talk  
You'd see what I mean
