

# Frances Ruffelle, We Will Be Free ( Eurovision 1994 )

Walk into the box  
Let your secrets out  
Time for confession  
Purify your soul  
Denounce the devil from within  
No time for aggression  
Don't wait up in vain  
Love has lost its way  
We live in segregation  
Can't you see the piece of dust  
That crumbles in your hand is me?  
Give me some affection  
And though my heart is broken  
My picture is forgotten  
But I still believe  
That I can see  
A piece of me reflecting in your eye  
(We will rise)  
(Never fall) Never fall  
(We will be free) And we will be free  
(We will rise) We will rise  
(Never fall again) We'll never fall again  
(We will be free) And we will be free  
Welcome to the land  
Where all our dreams are planned  
And fighting is a thing to do  
Sometimes it makes me feel  
Naked like a tree in autumn  
And through the clouds and rain  
Love has come to stake its claim  
In an ugly way  
And while you dance beneath an angry star  
I'm chasing rainbows across the sun  
And in this mad equation  
I still believe that we can be  
In harmony, you and me  
A chorus in your lonely symphony  
(We will rise)  
(Never fall) We'll never fall  
(We will be free) And we will be free  
(We will rise) We will rise  
(Never fall again) We'll never fall again  
(We will be free) And we will be free  
(We will rise)  
(Never fall) We'll never fall  
(We will be free) And we will be free  
And in this mad equation  
I still believe that we can be  
In harmony  
You and me  
A chorus in your lonely symphony  
(We will rise)  
(Never fall) We'll never fall  
(We will be free) And we will be free  
(We will rise) We will rise  
(Never fall again) We'll never fall again  
(We will be free) And we will be free  
We'll never fall  
We will be free  
With a little love  
(We will rise) We will be free  
(Never fall again) We'll never fall  
(We will be free) And we will be free
