

# Frank Bakken, Don't Go Away

I never told you that my heart  
Jumped like a rabbit from the start  
From the first time I saw you  
I lost my mind and that is true

When you smile the way you do  
I want to spend the night with you  
I want to kiss your sexy lips  
And touch your hair with my fingertips

Don't go away the night is young  
Lets dance again feel crazy tonight  
Don't go away the night is young  
Lets dance again go crazy tonight

I want to see the morning sun  
Reflected in your eyes  
So stay the night with me  
And lets make history.

When you move the way you do  
You make my body shake that's true  
Every time I see your face  
It's like looking into grace

Don't go away the night is young  
Lets dance again feel crazy tonight  
Don't go away the night is young  
Lets dance again go crazy tonight
