

Frank Black And The Catholics, Everything Is New

Everything is new
When the sky is blue
You got everything to do

Chesney quit the army and he start a band
He used to play that club down at Hermosa Strand
I think they're changing the name again
Down in Holland where the windows are big
They paint the buildings bright
Because they figured the rain is coming who knows when?

Everything is new
When the sky is blue
You got everything to do [x2]

Hiram said to John have you met my wife?
Someday she'll be yours when I lose my life
He lost it after playing the old Skyline
Seven years later after that same gig
John took the wheel, but when he got to the bridge
Billy Jean was alone for the second time

Everything is new
When the sky is blue
You got everything to do
