Frank Black, Big Red

Have you heard about big red?
They even bought a beebread rig
To help the flowers in the mean space
They're trying to make that place green

Hope the bees will take away the storm Hope the trees will take away the storm

Don't know how this whole thing started There was a crowd and then we parted Don't know if I'll ever go back It's a long way across all of this black

Here I am in my bucket today In the middle Here I am in my bucket today In the middle

They got a mule they call Sal Bulldozing up canal walls They're gonna tap that icecap too When they do they're gonna make that green map blue

The weather is finally getting warm And the weather is really getting warm

Don't know how this whole thing started There was a cloud and then it parted Don't know if I'll ever go back That's how I felt when I left that tarmac

Here I am in my bucket today In the middle Here I am in my bucket today In the middle
