

Frank Black, The Creature Crawling

The creature crawling
Don't know when he'll arrive
Don't know if the creature is dead or alive
All of God's creatures have a way to survive

Did you know about that?
Did you know about that?
Did you know about, oh, that?

Creature crawling
Creature crawling

The creature crawling
And he's coming up the road
He's crawling over to your video cult
Crawling through the grass of your little live home

Did you know about that?
Did you know about that?
Did you know about, oh, that?

Whatcha gonna say?
Whatcha gonna do?
What goes around, it comes around

One fine day
Look around
There will be nothing but you

The creature crawling
The creature crawling
The creature crawling
The creature crawling
