

# Frank Black, The Water

I hope they're doing okay  
I left my wife and kids back in L.A.  
I was no good at playing house  
So I started heading south  
A busboy said, "You best keep away from the water"

La Barra Zona Rosa was my home  
Some guys they never heard the phrase "When in Rome"  
Well she knifed that stupid sailor  
Now he's gonna need a tailor  
For his very special day away on the water

I thought it would be very nice  
To go downtown and see the bull fight  
But the beast had not a chance  
When I saw the lance

I heard the sound of a Volkswagen  
They tied his body to the bumper and started dragging  
I saw the blood separate away  
From the water

I hope they're doing okay  
I left my wife and kids back in L.A.  
I was no good at killing  
So I started up gin milling  
And I still just keep away from the water

I was no good at killing  
So I started up gin milling  
And I still just keep away to this day from the water
