

# Frank Black, Village Of The Sun

Well I've been hanging down side up  
Feeling really banged up  
Whishing everybody would shut up In the village of the sun

Yes  
More than just a little bit loud  
Well I was more than just a little proud  
To think that the opinions of the rocks and clouds  
Would even give us recognition

Oh I ever (?)  
I hear a sound that is delayed  
I know that help is on the way  
To the village of the sun

To the powers that be  
To the powers that be  
To an hour to be

Is it the intention of that child  
To be a bastard in the wild  
Eventually (?)  
Like (?)

Of course the cannon makes a rucus  
Like the lady in the circus  
We can try to (?)

To the powers that be  
To the powers that be  
To an hour to be

Maybe Ive said enough  
I wasnt trying to be all funny  
And I wasnt trying to be all tough  
Im almost done

No matter what I see  
That matter will say of me  
Aint that the way  
Of the village of the sun

To the powers that be  
To the powers that be  
To an hour to be
