

Frank Sinatra, I Saw Your Face In A Cloud

(back-up) [Connie Haines]

Connie Haines:

[I saw your face in a cloud, and I was singing out loud]

[When I saw your face, your very lovely face in a cloud.]

[I saw your eyes in a star, they winked at me from afar]

[A million miles away I saw them plain as day in a star.]

[You are on my mind, morning noon and night.]

[And no matter where I go, I find you are always in my sight.]

[I saw your face in the moon, you disappear too soon.]

[So I hope and pray when there's no moon to shine,]

[I'll see your lovely face, your very lovely face next to mine.]

(musical interlude)

Frankie:

You are on my mind, morning. noon and night.

And no matter where I go, I find you are always in my sight.

next to mine.
