You say there ain't no use in livin'  
It's all a waste of time  
'N you wanna throw your life away, well  
People that's just fine  
Go ahead on 'n get it over with then  
Find you a bridge 'n take a jump  
Just make sure you do it right the first time  
'Cause nothin's worse than a Suicide  
Chump

You say there ain't no light a-shinin'  
Through the bushes up ahead  
'N we're all gonna be so sorry  
When we find out you are dead  
Go head on and get it over with then  
Find you a bridge 'n take a jump  
Just make sure you do it right the first  
time  
'Cause nothin's worse than a Suicide  
Chump

Now maybe you're scared of jumpin'  
'N poison makes you sick  
'N you want a little attention  
'N you need it pretty quick  
Don't wanna mess your face up  
Or we won't know if it's you  
Aw there's just so much to worry about  
Now what you gonna do?

Go head on 'n get it over with then  
Go head on 'n get it over with then  
Go head on 'n get it over with then  
Go head on 'n get it over with then

You're on the bridge;  
Scared to leap,  
But a girl walks over  
To take a peep...  
She says: "DON'T DO IT!"  
But wouldn't you know...  
The girl got a head  
Like a buffalo  
With a little red hair  
All over the top  
An' her breath would make the  
Traffic stop

She says &quot;I LOVE YOU...  
BUT FIRST, LET'S EAT!&quot;  
And all you can say as you run down the  
street  
is...
