

Frankie Rose, Anything

The thing about you that makes me stop and wonder
The world around you is always on the brick
I bought some groceries and put them in the cupboard
I do a list of things that I learned from my brother

Anything (Anything)
Everything (Everything)
Any time at all
Anything (Anything)
Everything (Everything)
Any time at all

And if you abandon all your hopes and dreams, you'll find
That it's no use to be tender or that you had tried
Oh, that you had tried

It takes a lot of nerve to come and ask for sugar
You've never been too sweet that seem like your brother
What would your honey think? You shouldn't make a wonder
What do y'all do at night? Who's been due, hide under?

Anything (Anything)
Everything (Everything)
Any time at all
Anything (Anything)
Everything (Everything)
Any time at all

And if you abandon all your hopes and dreams, you'll find
That it's no use to be tender or that you had tried
Oh, that you had tried
