

Frankie Rose, Saltwater Girl

Black of your eyes
Saltwater girl
Box in your thigh
Saltwater girl
Warm to the touch
Saltwater girl

And in morning sun
In the morning sun
In the morning sun
You'll find me standing on my own

And in morning sun
In the morning sun
In the morning sun
You'll find me standing on my own

Robotic sigh (My hopes capsize upon you)
Saltwater girl
Stay hypnotized (True light shines upon you)
Saltwater girl
I realize (True love I find upon you)
Saltwater girl
You're made for me (You're made for me)
Saltwater girl
