

Frankie Rose, Song for a Horse

Won't you let your defenses down
Won't you come with me to a place I have dreamed we could be

This could be wrong
I have been wrong before
Just play along
Love is projection anyway

Won't you let your defenses down
Won't you come with me to a place I have dreamed we could be
Won't you let your defenses down
Won't you come with me to a place I have dreamed we could be

This could be wrong (This could be wrong)
I have been wrong before (I have been wrong before)
Just play along (Just play along)
Love is projection anyway (Love is projection anyway)

Won't you let your defenses down
Won't you come with me to a place I have dreamed we could be
Won't you let your defenses down (This is fine)
Won't you come with me to a place I have dreamed we could be (Sarcastic words aside)
Won't you let your defenses down (I don't mind)
Won't you come with me to a place I have dreamed we could be (I like the way you are)
Won't you let your defenses down (This is fine)
Won't you come with me to a place I have dreamed we could be (Sarcastic words aside)
Won't you let your defenses down (I don't mind)
Won't you come with me to a place I have dreamed we could be (I like the way you are)
