Franklin Daniel, I Thought We Had It All

We should talk That's what you said to me
In the playground You know the place will be
So there we sat Together in the night
I hear you saying You hope I'll understand
The love you used to feel You say it's not the same
When I reach for you You just turn away
Babe, please tell me what went wrong in this song?
Babe, you know without your love I can't go on,
I thought we had it all
Each time that you walk by I feel my heart would break
And then I think about The pain I'd have to take
But I know it's over for me It tears me up to see it die
I don't know how, I don't know why
I watch you walk away Disappearing in the dark
You're not coming back And it's tearing me apart
I knew what that meant It meant that I can never see you again
I had seen this once before I didn't wanna deal with it anymore
