

# Franz Ferdinand, Don't Start

There's only wind and dust to follow  
Your footsteps on the run  
You know me, know when I'm without you  
I swear my heart burns in the sun

Baby, don't start walking away  
Stop walking away  
Stop coming around and around again  
Don't start walking away  
Stop walking away  
Stop coming around and around again

I see you in your glasses clearly  
Your shades are blinding me, I say  
I miss you most when you are with me  
I miss your missing me each day

Baby, don't start walking away  
Stop walking away  
Stop coming around and around again  
Don't start walking away  
Stop walking away  
Stop coming around and around again

Don't start walking away  
Stop walking away  
Stop coming around and around again  
Don't start walking away  
Stop walking away  
Stop coming around and around again
