

Fred Hammond, When You Praise

(chorus 1)

when you praise, when you praise,
there should be a fire in your heart.
hands up raised, when you praise,
consuming every part because you know
the GOD we serve will make
his presence known, when you praise,
when you praise.

(2x)

when we think of how wonderful
and merciful and kind
our GOD has been to us.
then we know every glory hallelujah
he deserves, when we praise
(back to chorus 1)

praise will bind, confuse
and break the enemy.
and cause his hands to be still.
so we raise our hands in total victory
we know we triumph in his will.

(woman sings chorus 1)

when we praise, when we praise,
there should be a fire in your heart.
hands up raised when you praise,
consuming every part because you know
(chorus)the GOD we serve will make his presence known.
oh, when we praise, when we praise, when we praise.

(fred sings chorus 1)

let us praise, let us praise
with fire in our heart
hands up raised let us praise
consuming every part because you know
the GOD we serve will make his presence known.

(choir w/fred)

when we praise, when we praise, when we praise
when we praise, when we praise
there is none like you
when you praise, when we praise, when we praise
when we praise, when we praise
our GOD is an awesome GOD yeah
when we praise, when we praise, when we praise
when we praise, when we praise
bless the lord on my soul
(repeat 1x)

you can put your hands together in here tonight if you want to
(continue to "living word")
