

Freddie Dredd, GTG

Come on baby let's go get another fucking stain
Beat them, whip them with the chain
Feeling good up in the rain
Therapy I be killing bitches til' the end of me
Choking on your words tell you when it's gonna hurt
Ima break your heart
Freddie gonna make you fucking split the floor
What the fuck was that Fred?
Consequences heavy, are your bitches ready?
Step into my Chevy aiming very steady
Calm down, you ain't scared now
You accept your fate, you can't relate, you bow down
Stop that bitch shit
You never know who got the kick
Aiming at your head, dead
Gonna put your ass to bed, night night bitch
You's a light bitch
Freddie right bitch
Merk a fucking snitch, rest in peace mane
Take a load off, cold in yo damn grave
I think I got a cough, shit I'm sick
I got it from your blood
These bitches always try to fuck with me I'm in the mud
Let's try to sort that out, I promise you I will go easy
Your carcass fucking freezin'
Trickin' you it was so easy
I don't want a bitch over hoe, I think you just got to go
Meet me at the corner store
Gonna leave you wantin' mo'
Little suckers always comin' up to me
What you tryin' to say you little bitch, I'll end your day
I don't want a bitch over hoe, I think you just got to go
Meet me at the corner store
Gonna leave you wantin' mo'
Little suckers always comin' up to me
What you tryin' to say you little bitch, I'll end your day
