

# Freddie Hart, Can I Still Come Home

If love hasn't died if I'm not to blame  
And things there at home still be right  
If I still have choice of where I want to go  
Can I still come home to you tonight

Do you still wear my ring am I still on your mind  
Do you still dream of holding me tight  
Only you can say so darling let me know  
Can I still come home to you tonight

Should I hang up the phone and just leave you alone  
If I keep on moving on would that be right  
Only you can say so darling let me know  
Can I still come home to you tonight  
Can I still come home to you tonight
