

Freddie Hart, House Of Sand

Your house of sand it won't stand very long
There's no foundation there to build lovin' on
And I stood just about all I can stand
And I can't live in your lonely house of sand

Built a house of love I thought would last forever
But you told me you couldn't love just one man
You took my house of love and tore it all to shambles
And replaced it with your crumbling house of sand
Your house of sand...

[piano]

Your house of sand...
No I can't live in your lonely house of sand
