

Freddie Hart, If Fingerprints Showed Up On Skin

If fingerprints showed up on skin wonder who's I'd find on you

I'm out of my mind with worry you been out all night again
But don't tell me and I won't ask where in the world have you been
I don't even wanna know what you been up to
Oh but if fingerprints showed up on skin wonder who's I'd find on you

I can't help it this feeling this hunger deep inside
For loving you's the only food that keeps my world alive
I wish I didn't want and need you heaven knows I do
If fingerprints showed up on skin wonder who's I'd find on you
I can't help it...
