

Freddie Hart, Let's Clean Up The Country

Let's clean up the country that we're living in
Wash Ol' Glory's face so she can smile again
Divided we fall but united we stand
Let's clean up the country we live in

Remember when Amareca's heart was full of pride
We dressed her up in splendor and we all stood by her side
And no one dared to anger that eagle flying by
America's been good to us how could we make her cry
Let's clean up the country...

Remember that good feeling of wanting to belong
The future was a pretty picture life a happy song
Freedom and demogracy we all knew what it meant
And every mother's son he wanted to be President
Let's clean up the country...

[guitar]

Let's clean up the country we live in
