

# Freddie Hart, Love Did This To Me

Love did this to me love did this to me  
Open up my heart so my eyes could see love did this to me

For a while I thought I couldn't make it  
Life became a poory thing I just couldn't take it  
Loneliness was tearing me apart  
But love reached out the hand and grabbed all of my heart  
Love did this to me...

My first taste of love was when I kissed her  
Now my life's a paradise everywhere around her  
What was half of man is now the whole  
I feel so good all over right down to my soul  
Love did this to me...  
Yes love did this to me...  
Love did this to me...
