

Freddie Hart, Skid Row Street

Where wounded hearts lie dying victim's all a broken back
I take my walk down lonely Skid Row street
It's not in the best part of the town but it caused to those like me
Who tried to lose their bad memories on blue lonely Skid Row street
Blue lonely Skid Row street

I wander blindly through the town I just follow my feet
But I wind up where hard liquor flows so free
For there I know I'll find someone who feels the same as me
For broken dreams and mem'ries meet on blue lonely Skid Row street
Blue lonely Skid Row street

They say I'll look back on it all at last someday
For letting my foolish heart control my mind
They say in time true love I'll find in someone that I meet
Who'll give me hope a cause to leave blue lonely Skid Row street
Blue lonely Skid Row street
