

Freddie Hart, Togetherness

When a lonely boy finds a lonely girl that's togetherness
Before I met you my whole world was blue that's loneliness
But love conquers all makes big trouble small and evens out of score
For togetherness makes loneliness walk right out the door

See a new mother's smile when she holds her first child togetherness
But break them apart and you'll break a heart that's loneliness
So please stay with me and I'll never be unhappy anymore
For togetherness makes loneliness walk right out the door
(Togetherness)
