

Freddie Hart, Too Much Of You (Left In Me)

I'm in a bar listening to our favorite song
And there's a girl here with me where you belong
Cause every time I look at her your face I see
There's just too much of you left in me

Oh yes you've gone but you're here just the same
Tonight I called a total stranger by your name
But anyone with any eyes at all could see
There's just too much of you left in me

There's just too much of you left in me
You've left behind too many memories
And I would give my right arm if I knew
There was too much of me left in you
Yes I would give my right arm if I knew
There was too much of me left in you
