

Freddie Hart, You've Got It Coming To You

You've got it coming to you
You're quite an artist dishing out the heartaches
You've painted my life every shade of blue
You don't know how it hurts to feel your heart breaks
You've got it coming to you
I was true I worshipped you with every breath
But all you ever love is Y-O-U
Careful too much rope you just might hang yourself
You've got it coming to you
(steel)
Someday you may need someone you idealize
Just hope and pray that they will love you too
Although you've deserved to be cut down to size
You've got it coming to you
I was true I worshipped you...
You've got it coming to you
