

Fredrik Thordendal's Special Defects, Death at B

parallel dimensions: on frequencies sublime.
hidden for millenia to earthbound mind. girded with lies.
reality until now. delusional abbreviation.
unearthly codes deciphered at last.
an eternal presence. a moment without a past.
reality transfigured. still the same.
in deafening silence. all things flow.
a pulsating vessel. presence: rising. falling. in and out.
the eschaton is calling from the end of time.
